

HOSPITALITY

www.gen-eco.com.au

Dulwich Bakery—Mt Barker SA Designer: Hosking Interior Design Shopfitter: Creative Commercial Interiors
 Product: ECONO beams with Tasmanian Oak decor overlay [This project is featured on the front cover](#)

Kiaan Health Foods—Westfield Coomera QLD Shopfitter: Woodland Shopfitting
 Product: 75mm Ecolite Beams with Rough Sawn Oak imagery

Kivahan Coffee—Coorparoo Square QLD Designer: Blackbox Retail Design Shopfitter: Building In Green
Product: Overhead bulkhead panels on MDF to match existing solid timber counter-front

COCOBLISS—North Lakes QLD Designer: Blackbox Retail Design Shopfitter: Fix It Up
Product: Cocobliss corporate graphic imagery on Fibre Cement cut into tiles sizes

Gen-Eco can assist with hospitality projects in many areas. From Ecolite ceiling beams and panels, to wall cladding and custom tiles on fibre cement substrate.

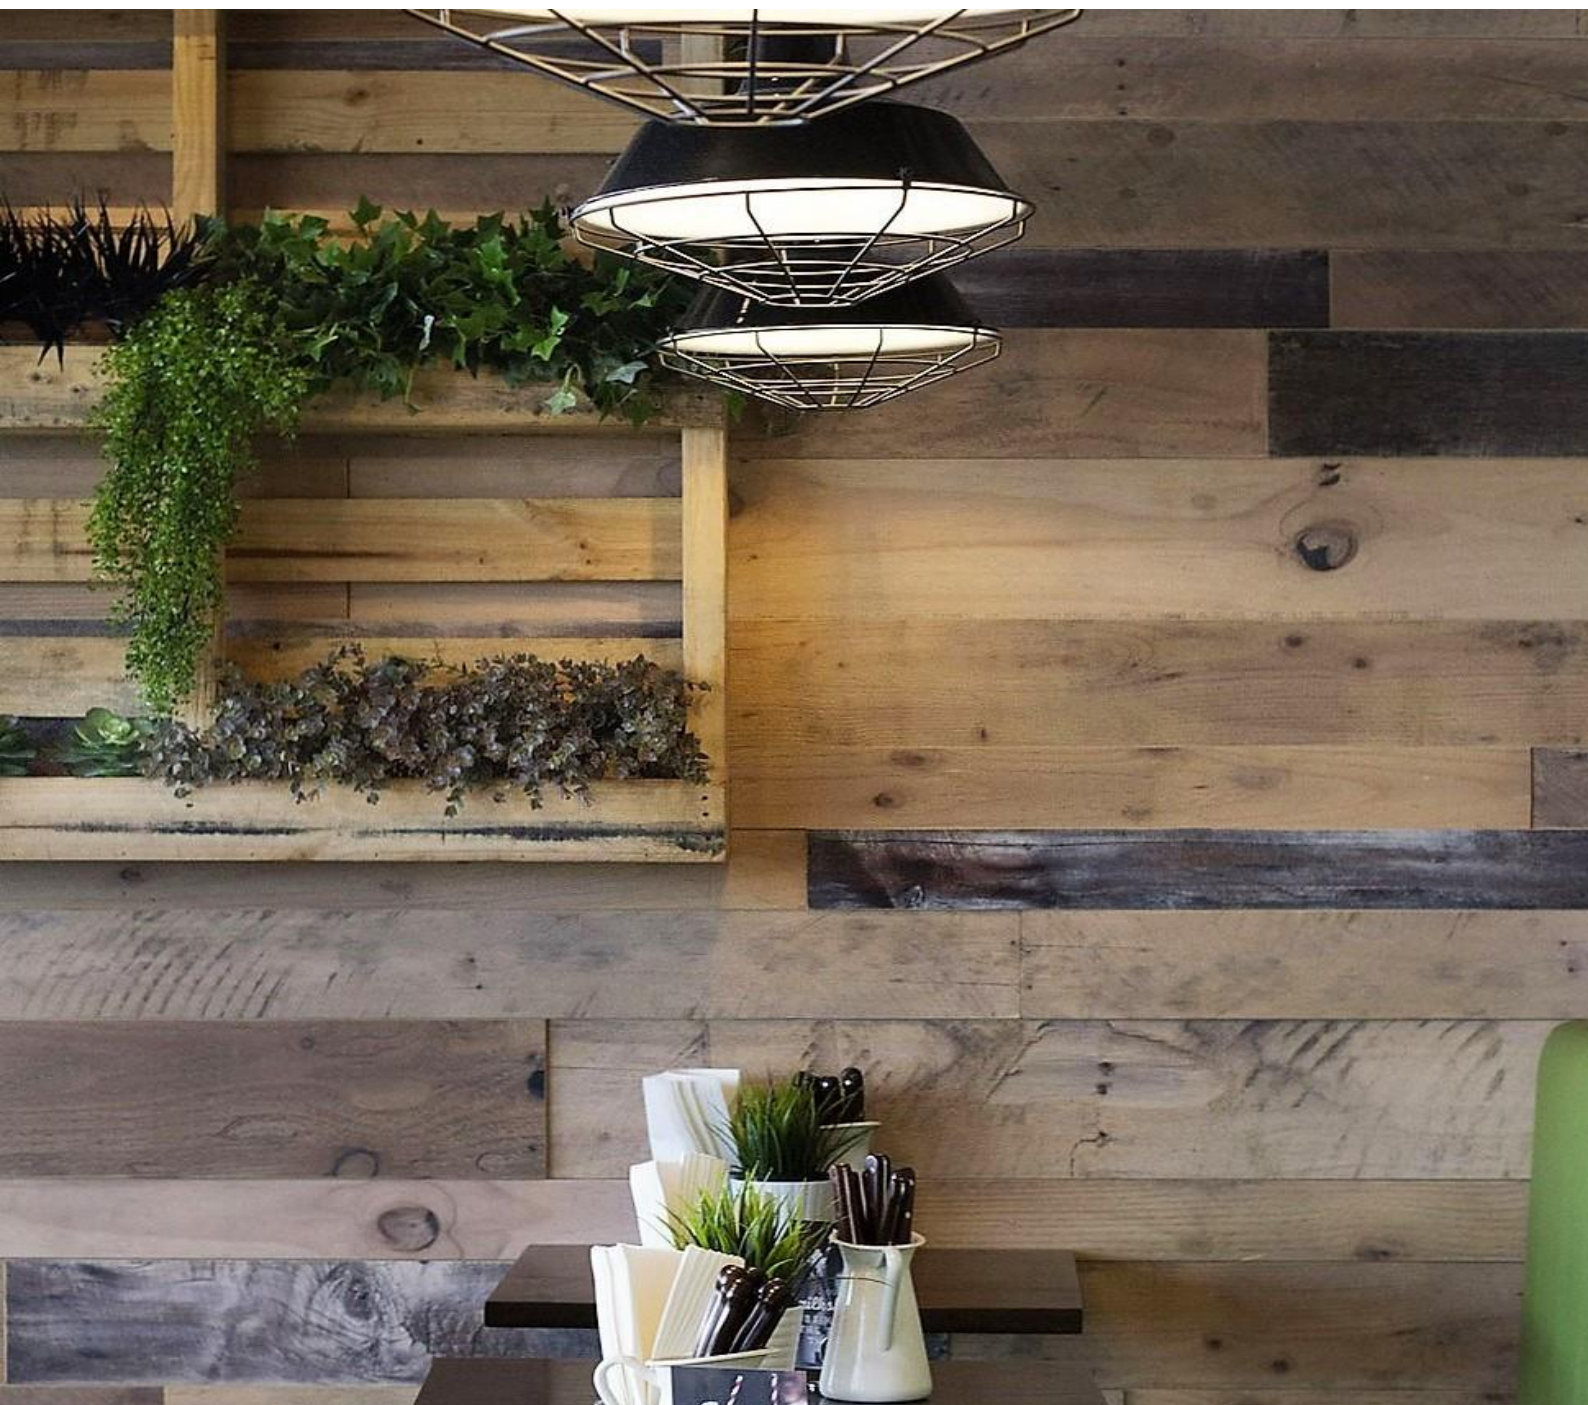

One of the main advantages we offer is our ability to tailor a fit-out to a clients specific ideas. A lot of our projects are 'one off' so whether it be a national chain or a local operator we can provide unique solutions that won't be seen in other businesses.

Some examples include:

Scuzi Café—this project started from a 200 x 200mm ceramic tile which was scanned, altered and increased in size to 600 x 600mm. Foamboard panels had the image applied reducing the installation cost.

Kivahan Coffee—the client wanted the look of timber for the bulkheads but the cost of engineering the ceiling to take the weight was prohibitive. The solution was to scan hardwood planks and apply to MDF panels—another cost saving that still looks like real timber that was used in other parts of the fit-out.

CocoBliss—we started by cutting fibre cement sheets into tiles, then the client supplied graphic was applied onto the tiles. After having a polyurethane coating they were tiled like any other ceramic tile.

Burger Urge—Rockhampton QLD Shopfitter: Trademarc

Product: Whilst it may look like recycled timber, it is re-cycled imagery on plywood panels which saved installation cost

Burrito Bar—Perigian Springs QLD Designer: Blackbox Retail Design Shopfitter: Farrago Interiors
Product: Concrete imagery on MDF panels which included the 'skull' graphic—another cost saving.

Burrito Bar—Holmview QLD Designer: Blackbox Retail Design Shopfitter: Fix It Up
Product: Ecolite hollow box beams with concrete imagery—the look without the cost

Scuzi Café—Westfield Chermside QLD Designer: Clui Design Shopfitter: Building in Green

Pantry On Grey—Southbank QLD Designer: Clui Design Product: Metallic steel imagery on MDF and machined into a C shape beam
