

ECONO

This range consists of lightweight solid core decorative beams and ceiling fins, at an economical price point. The range of foil laminates is available in a selection of timbergrains, patterns and plain colours.

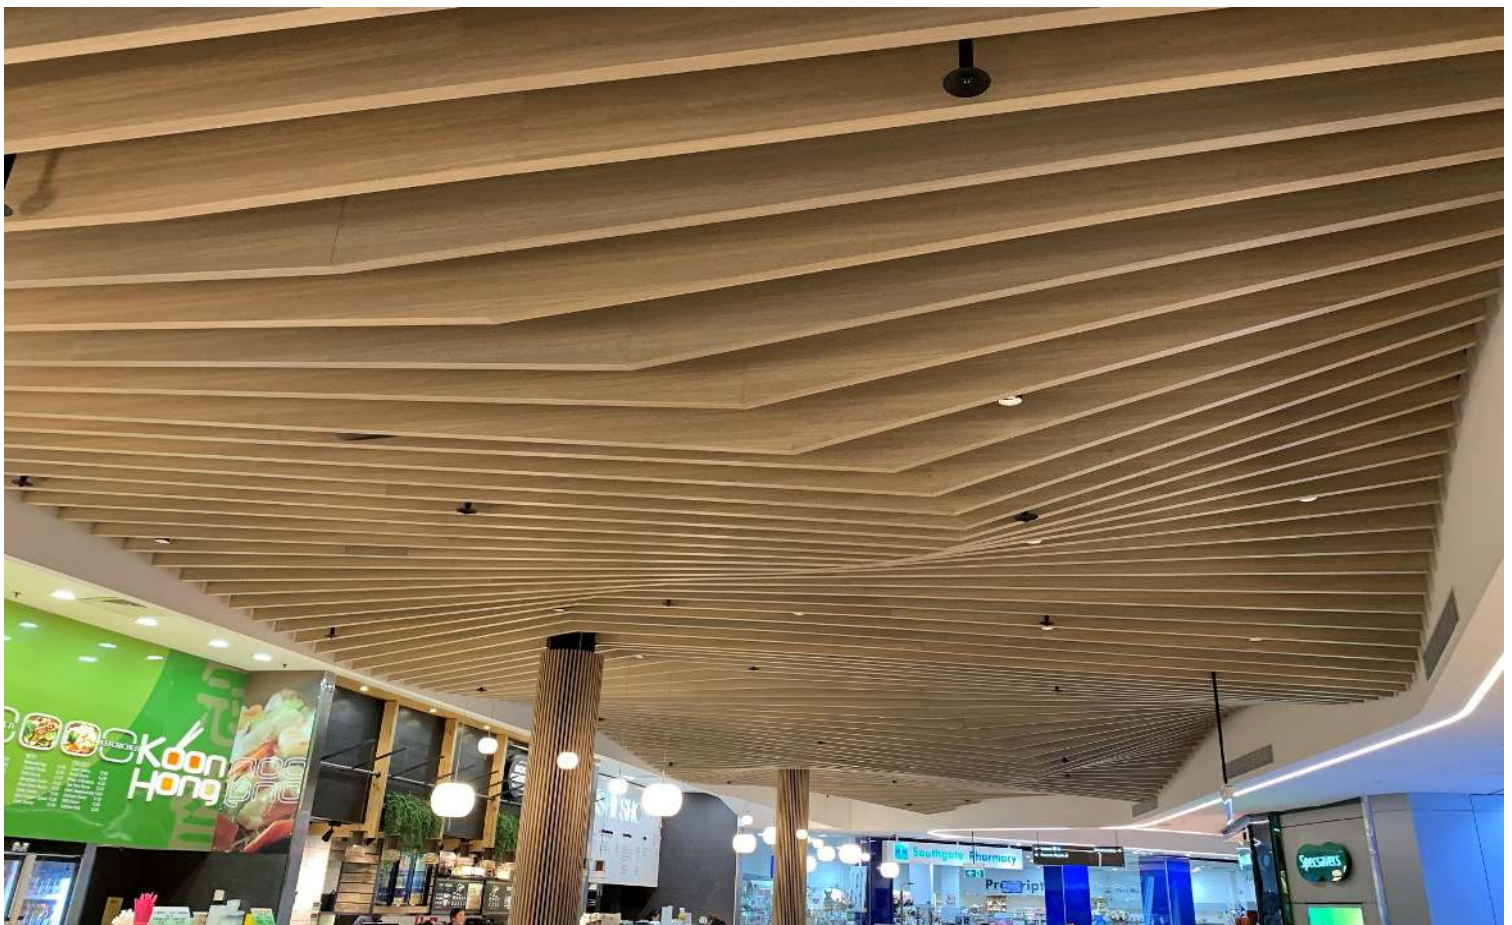

Utilising the lightweight advantages of our solid core sustainably sourced Falcata /MDF composite panel, **Gen-Eco Econo** is available in lengths of 3600mm and 38 & 50mm thickness. Standard beam depths are 97/ 147/ 197/ 297 & 397mm.

Apart from beams and fins, the décors are also ideal for wall and ceiling panels combined with acoustic and perforation options.

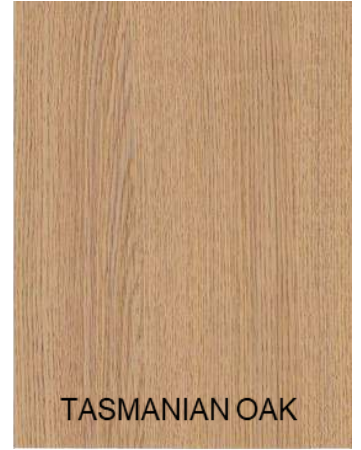

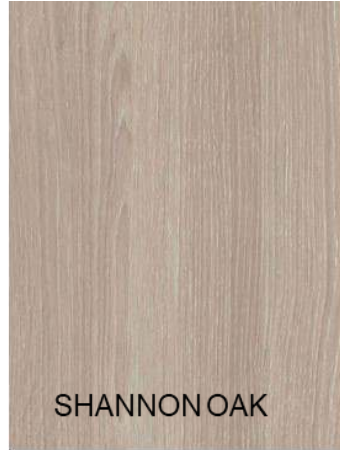

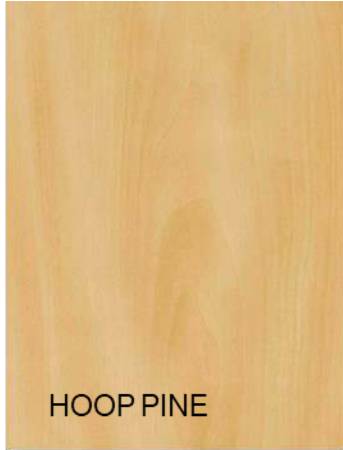

GEN-ECO's Econo range offers cost savings where price is a determining factor without sacrificing the appearance of the fit-out.

Econo beams constructed in a wave pattern—Southgate Shopping Centre Sylvania Waters

ECONO RANGE

The range consists of 11 woodgrains, 1 pattern plus solid black and white.

How to specify: Refer to this product as 'Gen-Eco Econo beam with _____ finish.'
